

Swift Kon-Tiki 794 (2025)

For the 2025 season, Kon-Tiki showcases significant improvements and advancements aimed at elevating the premium line-up even further. With the introduction of a striking new Fiat cab in Black Metallic, complemented by a revamped exterior graphics scheme, Kon-Tiki is once again setting the standard for luxurious motorhomes.

There are six models available for 2025, including three single and three tag axle, each featuring a garage with services. The versatile lounge design incorporates foldaway Aguti travelling seats with convenient travel cup holders, and an electric rise and fall table. Two models feature an electric drop-down bed for an elegant, practical space.

Enhancing the driving experience, the updated cab design includes a chrome-trimmed dashboard with a 10" touchscreen HD color display and satellite navigation, alongside cruise control, air conditioning, and strong connectivity via built-in 5G Wi-Fi. Parking is made easier than ever with rear reversing sensors paired with twin reversing cameras.

Long journeys are more enjoyable thanks to the new Euro 6E 180bhp engine paired with an 8-speed automatic gearbox, as well as on-board fresh water and waste water tanks with level sensors. An integrated 120W solar panel provides sustainable energy wherever the road takes you, with tag axle models featuring two 100W panels.*

This season, the Kon-Tiki's interior is rejuvenated with the new Cinnamon soft furnishing scheme, offering a fresh, modern look. The washrooms feature shower tray duckboards and a chrome mixer tap, adding extra touches of luxury throughout.

The impressive specification also includes Alde heating, the Swift Command control system with a 7" touch panel, and the Swift Command Tracker, a Thatcham Category S7 approved proactive tracker (subject to annual subscription).

Built on Swift's pioneering SMART construction platform with a timberless upper bodyshell and durable GRP outer skin, Kon-Tiki continues to offer outstanding build quality, backed by a 10-year bodyshell warranty.**

* Two 100w solar panels on tag axle models

** Subject to terms and conditions.

- European Whole Vehicle Type Approval ensures compliance with strict weight, dimensions and safety regulations
- **NEW** Fiat chassis cab in Black Metallic, with **NEW** updated front grille and body coloured bumper
